## Table Of Contents

### Registration functionality

gs0-3: Registration with valid email and password

gs0-4: Registration with invalid email and valid password

gs0-5: Registration with valid email and invalid password

### Login functionality

gs0-9: Login with valid data

gs0-10: Login with invalid data

gs0-11: 'Remember me' functionality saves data

gs0-12: 'Lost your password' feature recovers account

### My Account subpage

gs0-13: Elements from side menu lead to proper pages

gs0-14: Orders bookmark contains yours orders

gs0-15: Billing address could be saved and edited

gs0-16: Shipping address could be saved and edited

gs0-17: Password could be change

gs0-18: You can't change password without valid data

gs0-19: User is able to log out

## Test Plan: Generic Shop / My Account

---

The objective of this testing process is My Account subpage of the website Generic Shop (<https://skleptest.pl/>).

The scope of testing includes:

- register functionality,
- login/logout functionality,
- access to my orders,
- billing and shipping addresses management
- change password functionality

All test cases will be executed manually.

Test Suite : Registration functionality

In Scope:

The objective of this testing process is to validate the functionality of the new user account registration feature within the application.

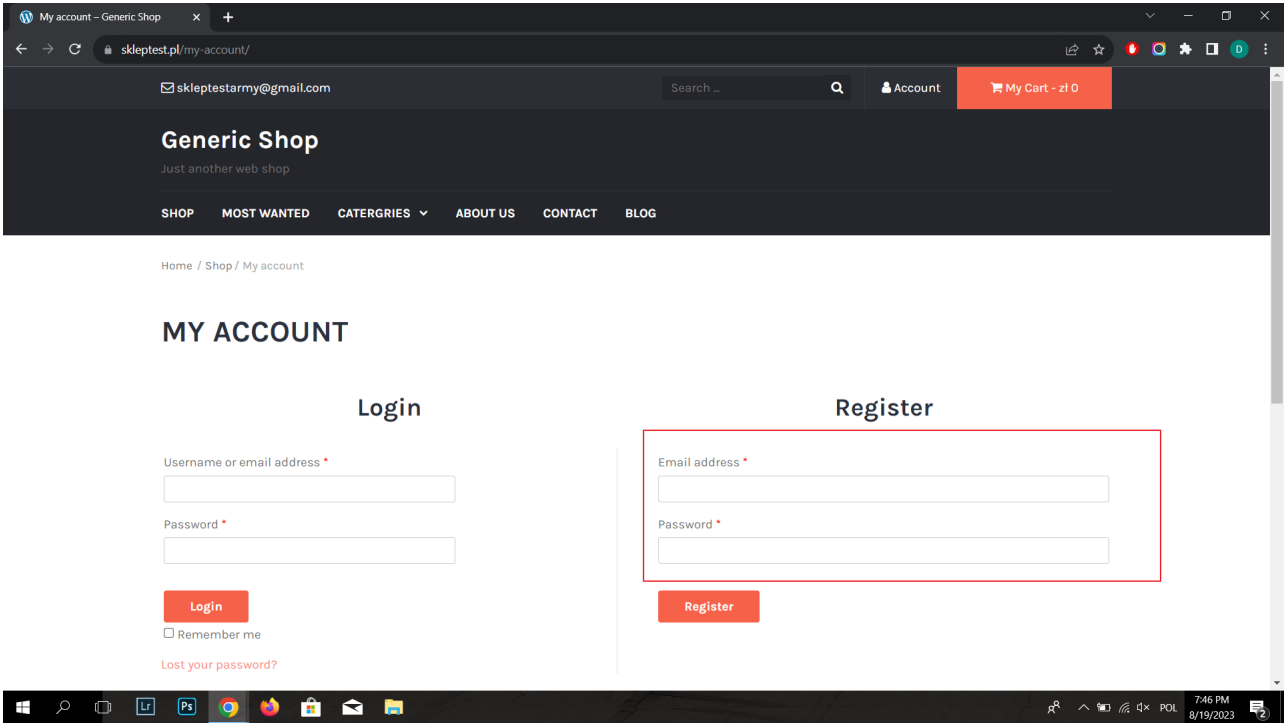

Specifications:

- The registration of a new user requires a valid, previously unregistered e-mail address and a strong password
- A strong password should be at least twelve characters long and contains upper and lower case letters, numbers, and symbols like ! " ? \$ % ^ & ).

Preconditions:

<https://skleptest.pl/my-account/> page is opened

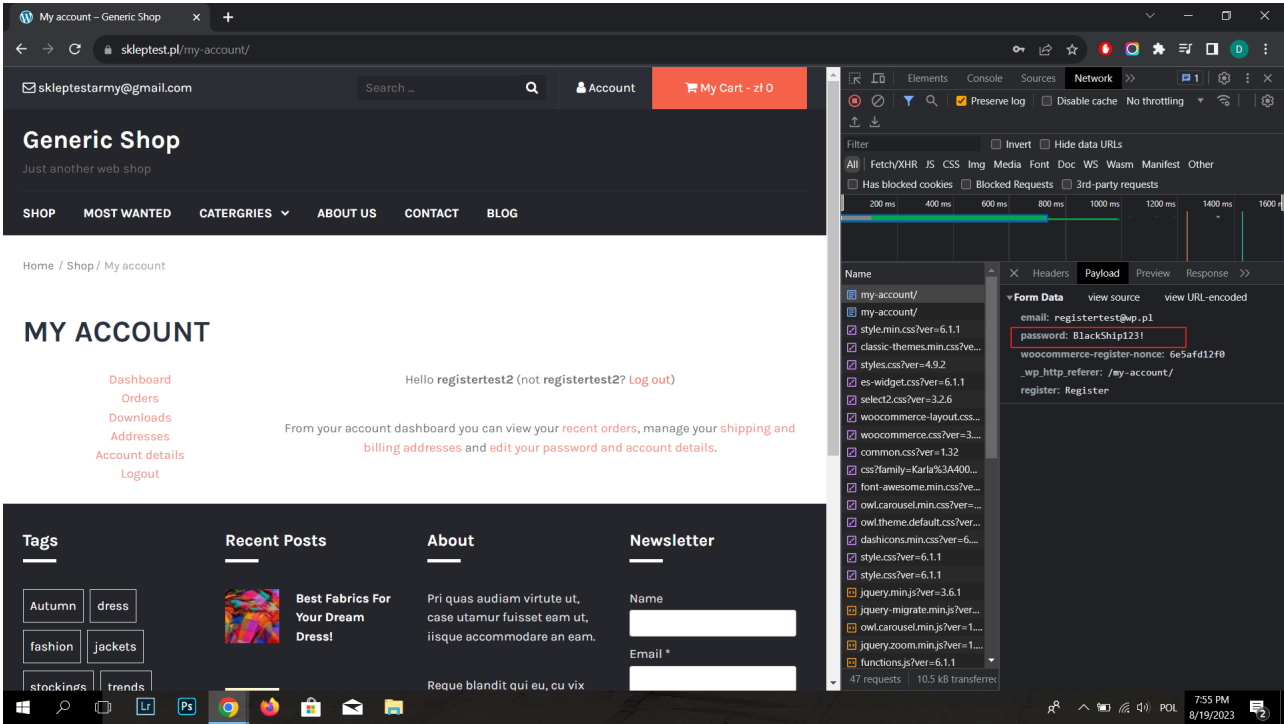

Test Case gs0-3: Registration with valid email and password [Version : 1]				
#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	-	<div>The login and registration page view loads with the following components:<ul style="list-style-type: none"><li>• register form contains fields: email address, password, confirm password</li><li>• register button is available</li><li>• login form contains username or email address filed and password field</li></ul></div>	"Confirm password" element is missing	Failed
<div>Execution Attachments<ul style="list-style-type: none"><li>• confirm.png</li></ul></div>				

2	Fill registration form with valid data	<ul style="list-style-type: none"><li>Entered data are displayed</li><li>Password is displayed encrypted</li></ul>	Passed
3	Click on the "Register" button	<ul style="list-style-type: none"><li>The new account is created</li><li>The My Account page is opened with a welcome message</li><li>Password sent to database in salting (verify DevTools/Network/Payload)</li></ul>	Failed

**Test Case gs0-4: Registration with invalid email and valid password [Version : 1]**Preconditions:

Access to registered email address

#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1	In the registration form, enter a valid password and an email address: <ul style="list-style-type: none"> <li>without @ symbol</li> <li>starting with @ symbol</li> <li>ending with @ symbol</li> <li>without domain</li> <li>with a space inside</li> <li>already registered</li> <li>leave email address field empty</li> </ul>	Entered data are displayed		Passed
2	Click on the "Register" button	<ul style="list-style-type: none"> <li>The new account is not created</li> <li>A valid message is displayed</li> </ul>	Registering already register user is possible. The account is overwritten.	Failed

**Execution Attachments**

- accountOverwritten.png

The screenshot shows the 'MY ACCOUNT' page of the 'Generic Shop'. The page has a dark theme and includes a navigation bar with 'Account' and 'My Cart - 21 0'. The main content area shows a greeting 'Hello test1788 (not test1788? Log out)' and a list of links: Dashboard, Orders, Downloads, Addresses, Account details, and Logout. A red box highlights the text 'test1788'. A red arrow points from the 'test1788' text in the browser to the 'test1788' text in the 'Form Data' section of the Chrome DevTools Network tab. The 'Form Data' section shows the email 'test@p.pl' and password 'REditorse123'.
